SYSTRONICS Stock Aging Report™ 2027C

for Sage 300

Use SYSTRONICS Stock Aging Report™ to view and print aging of the stock from Sage 300 Inventory Control Module. Stock can be aged by separate locations or across all locations.

There are two report types available:

- **All Items** – when you select this option, aging is based on the receipt and assembly information. The First In First Out (FIFO) operations method is assumed for aging the stock, regardless of the costing method used in I/C.
- **Lot/Serial Items** – when you select this option, only serial and lot items are printed. They are aged based on the stock or expiry dates.

Compatibility: Sage 300 version 2027.
Required Sage 300 modules: S/M, I/C.

Functional Features

- Stock is aged by separate locations or across all location
- Aging is based on the receipt and assembly information
- Optionally, I/C Adjustments and I/C Transfers are included in aging
- Separate reports can be printed for all items or lot/serial ones
- Lot/serial items are aged by their stock date or expiry date
