

I/C Item Converter™ 5.5B

for Sage Accpac ERP 5.5

Speed Up & Simplify I/C Item Assembly & Disassembly!

I/C Item Converter™ is an add-on for the Sage Accpac ERP Inventory Control module. The purpose of this application is to perform item conversion transactions in IC. In an Item Converter transaction, stock items are redefined as different items. This change affects quantities on hand and total costs of both items under consideration. The Many-to-Many Converter transaction that allows many-to-many item conversions can be used as an assembly or disassembly tool. Templates can be used to automatically populate Many-to-Many Converter transactions with predefined sets of source and destination items.

In Sage Accpac ERP, the same can be achieved by creating standard Stock Adjustment Transactions, with quantity and cost decreases for the source items and the reverse for destination items. I/C Item Converter comes to simplify this process by automating the generation of respective adjustment transactions.

Li...	Source It...	Source Item Description	Source Lo...	Source Locati...	Source Qu...	So...	Source U
1	A1-105/0	13w Mini Fluorescent B...	1	Central wareho...	10	Ea.	4.914
2	A1-103/0	Fluorescent Desk Lamp	1	Central wareho...	3	Dozen	29.075

Convert One I/C Item To Another!

Li...	Item Number	Item Description	Location	Location Description	Quantity	UOM	Unit Cost
1	A1-103/0	Fluorescent Desk Lamp	1	Central warehouse ...	2	Dozen	29.075036
2	A1-105/0	13w Mini Fluorescent Bulb	2	Portland Office	5	Ea.	5.058462

Total Source Cost: 83.44 Total Destination Cost: 80.24

Assemble & Disassemble Without a BOM!

Functional Features

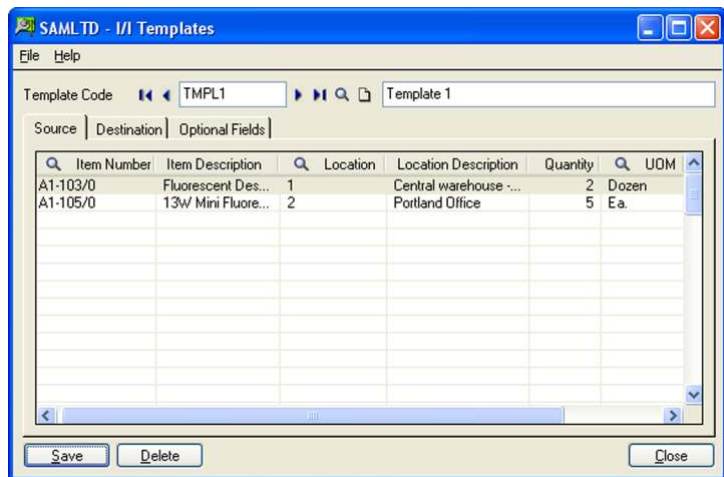

- Assembles & disassembles I/C Items without requiring a BOM.
- Converts source I/C Items to destination I/C Items of equal or different total costs.
- Converts specified quantities of source I/C Items to specified quantities of destination I/C Items.
- Includes:
 - Many-To-Many Conversions Report.
 - Many-To-Many Conversions Templates.

Highlights

- Supports Sage Accpac Security.
- Supports Sage Accpac Integrity Check.
- Supports Multiple Company Databases.
- Supports All Databases Supported By Sage Accpac.
- Supports DBDUMP & DBLOAD.
- Supports Multi-Lingual User Interfaces.
- Supports Sage Accpac Optional Fields.

Compatibility

- Sage Accpac ERP version 5.5.

Business Benefits Gained as a Result of Implementing I/C Item Converter:

- Speedy and simplified I/C Item assemblies and disassemblies.
- Reduced Number of I/C Transactions.
- Reduced Ongoing Costs with Easy Installation, Configuration & Support.
- Web Deployment.

Technical Details

- I/C Item Converter is a Sage Accpac SDK application.
- Required Sage Accpac modules: SM, IC.

Minimum System Requirements

- Windows 2000, XP or Vista workstation, IE v.6.0 or later.
- Minimum Pentium 600 MHZ processor, 512 MB RAM, 200 MB of free hard disk space.
