

Royalty Payments™ 5.5B

for Sage Accpac ERP 5.5

Simple, Accurate & On Time Royalty Payments!

Royalty Payments™ 5.5B is a Sage Accpac SDK application, which facilitates and streamlines the calculation and processing of royalty payments to intellectual property owners. Being fully integrated with Sage Accpac, Royalty Payments is an effective and easy-to-use tool. Contracts with Vendors are defined in a single screen, where terms are specified per IC Item and sales volume. Royalty Payments is designed to handle sales in customer currency, contracts in Contract Currency and royalty payments in a third currency, where prepayments can be made in multiple installments if required. Royalty Payments maintains updated balances for Royalty Vendors and Royalty Contracts. Royalty Vendor Statements, Contract Inquiries, Royalty Audit Reports and Exception Reports are available.

Royalty Payments 5.5B requires Sage Accpac Transaction Analysis & Optional Fields Creator module.
